About Dublin City Council

The Dublin City Council Heritage Office is part-funded by The Heritage Council and is concerned with refining and promoting an understanding and appreciation of the architectural, archaeological and cultural heritage of the city.

The Conservation Office of the Planning & Property Development Department provides professional advice to owners of protected structures on conservation issues, and oversees conservation grants and planning in relation to protected structures.

About the Irish Georgian Society

Our purpose is to encourage the appreciation and conservation of Ireland's architecture and decorative arts. We are a charitable organisation founded in 1958 with 2,400 members. Membership is open to everyone; by joining you support our four programmes: Conservation Projects; Buildings at Risk; Scholarship & Publications; Conservation Education.

This conservation course is an action of the latter programme, which is supported by Merrion Property Group and Heather & John Picerne. Members attend the Society's special events such as lectures, seminars, conferences and tours of architecturally significant buildings in Ireland and abroad, many of which are not accessible to the general public.

Historic Decorative Plasterwork: its history, significance and conservation by **Andrew Smith**, consultant decorative plasterwork conservator

Tuesday 30th April

Historic Doors & Staircases: their history and conservation by **Peter Clarke**, retired lecturer, Dublin Institute of Technology

Architectural Walking Tour

Saturday 13th April 10.00am until 11.30am

Dr Susan Galavan, MRIA, will lead a walking tour examining the architectural form, style and detailing of Northumberland Road, D2. Built over the course of six decades in the 19th century its buildings which vary from tall red-brick terraces to fine semi-detached houses provide an exemplar of the development of Dublin's Victorian domestic architecture.

The Irish Georgian Society and Dublin City Council have assembled a team of conservation experts to present a series of talks on the history and significance of Dublin's period houses and practical advice on their conservation. Attendance at the talks will greatly benefit owners of all periods and types of houses, from the modest Edwardian artisan dwelling to the substantial red-bricks of the Victorian suburbs and the fine townhouses of our Georgian city squares, providing an 'A to Z' for their care and conservation.

Talks, which will commence on Tuesday 12th February 2019 from 1pm to 2pm and continue for 12 weeks, will take place in the Irish Georgian Society's City Assembly House, 58 South William Street, Dublin 2.

It is possible to attend all, one, or as many of the talks as you wish. The talks are priced at €15, which you may pay for at the door or book in advance for a special reduced price of €125 for all twelve talks. Complementary to the Tuesday talks will be a Saturday morning walking tour, at an additional cost of €15.

The Conserving your Dublin Period House Course is an action of the Dublin City Heritage Plan and fulfils Dublin City Council's conservation policy to provide architectural advice to homeowners. It is also an action of the Irish Georgian Society's Conservation Education Programme.

The Conservation Education Programme is supported by Merrion Property Group and Heather and John Picerne.

These talks will also benefit building professionals and practitioners and are approved for CPD by the Royal Institute of Architects of Ireland, Engineers Ireland, the Irish Planning Institute and the Heritage Contractors.
